WET AREAS

The new PVC-free EHA mats made of Thermolast® set new standards in the field of flooring mats for use in wet areas. Thanks to their high temperature resistance as well as pleasant and warm haptic features these PVC-free EHA mats are the first-choice product also for use in saunas.

The mats are robust, hygienic, and cleaned using customary cleaning methods; since they are highly elastic they can be easily handled.

The mat meets requirements to DIN 51097 for wet barefoot areas and thus ensure optimum anti-skid characteristics.

TECHNICAL DATA

Material	THERMOLAST® K
Available width	40 to 120 cm
Weight	appr. 5,4 kg/m ²
Temperature resistance	-5°C to +80°C up to 100°C temporarily
Slip resistance	Classification C to DIN 51097
